

The Benefits of Short-Term Rehab at Islands

Short-term rehab offers many great benefits for those recovering from surgery, illness or injury.

24/7 Access to Care

Choosing to receive your rehabilitation care with us provides you with 24/7 direct access to services in a healing environment. It also reduces caregiver burden from recovering at home and provides you with peace of mind knowing that our team of professionals can provide care a moment's notice should the need arise.

State-of-the-Art Therapy Gym

Our community offers a state-of-the-art therapy gym, equipped with the tools to help you recover quickly, such as the Eyegaze Edge® and several NeuroGym® Tech products. Aegis Therapies® clinicians are specially trained and will work with your physician to develop a therapy plan customized just for you.

Safety Protocols You Can Count On

When making your choice for where to recover, you can rest assured that your health and safety is our number one priority. We follow strict CDC policies and CMS guidelines for controlling the risk of COVID-19 infection, including additional measures for screening anyone who enters our community. These safety protocols help to ensure the same level of precaution you would expect from anyone entering your own home.
